

BUILDREGS - AUTOMATION TEST DOCUMENT

This file is a test fixture. It is not a real drawing and carries no design information.
Submitted to exercise the Phase 1 intake automation end to end.

Mock enquiry details

Project type Loft Conversion
Property 14 Test Street, Sampleton, ST1 2AB
Storeys Two, plus proposed loft
Roof Cut timber, pitched, approx 42 degrees
Proposed Rear dormer, ensuite, staircase from first floor landing

What this file is checking

1. That the uploaded file keeps this filename in Google Drive
rather than being saved as file.txt
2. That the file lands inside the correct client project folder
3. That the acknowledgement email reports the plans as Received

Deliberately kept to a few kilobytes: the intake scenario has previously
failed with `MaxFileSizeExceededError` on large uploads.

Generated for BuildRegs Milestone 2 acceptance testing.
